- Ruby
- LISP

Graphic, Motion & 3D Software
- Adobe CC Suite
- Blender
- Unity

LANGUAGES

Spoken and Written
- English
- French
- Portuguese
- Italian

WORK EXPERIENCE

2017 – Present
Web Developer, MageMontreal
magemontreal.com

At MageMontreal, I am one of the lead developers on a team of 5 developers who takes care primarily of front-end development and integrations. I am in charge of overseeing several different projects (BeautySense, Jsonic, System Equine) from start to finish, which includes both the sale, management, and development of the project.

2014 – 2016
Web Developer, MTY Food Group Inc.
mtygroup.com

At MTY Food Group Inc., I was given the task to develop websites for their now 40+ brands (Tutti Frutti, TCBY, Sushi Go Express, le SushiMan, Thai Zone, Madison's online reservation system, among several others). I was also given the responsibility to develop and maintain their web servers as well as their online databases for each of their web pages (MySQL databases, Microsoft SQL Server). I also worked with their graphic design team to develop web pages that fit the specific brand's identity.

2013 – Present
Freelance Work

Throughout my studies, I have received countless freelance jobs. However, most of them web related. From ex-students to contract jobs from established companies around Montreal (such as UN Architecture) I have and continued to work on projects that fully fit the client's needs and expectations.
